

# Fee Structure for Hotel Valuations and Expert Reports

Our hotel appraisers, hospitality consultants, and certified experts develop the most transparent and practical billing model for each individual mandate. We ensure that our fees are aligned with the specific scope and complexity of your project.

## Private Valuations and Hotel Consultancy

Every private consultancy project begins with an initial meeting—typically in person—to define the exact objectives and scope of work. During this consultation, we provide an estimate of the required time and the projected fee volume to ensure full cost transparency and planning security for both parties. Our fees for hotel valuations and expert services are based on hourly or daily rates, or a fixed-price agreement depending on the time involved:

- **Hourly Rates:** €175.00 to €215.00
- **Daily Rates:** €1,400.00 to €1,700.00

Additional expenses, such as travel costs, per diems, communication fees, and materials, are billed based on actual expenditure. All fees are subject to the currently applicable VAT.

## Court-Appointed Expert Reports

For court-appointed mandates, the remuneration for our hotel experts is strictly governed by **Annex 1 of the Judicial Remuneration and Compensation Act (JVEG)**. The industry-specific hourly rates for these services start at a minimum of €135.00 plus VAT.
